TERMS

For less than 250 plants, aggregate order, 10 per cent additional will be charged. Send us your orders now, big or little.

Prices F. O. B. Riverside, California. All bills due 60 days from date.

Stock can usually be handled by Christmas time. We can dig only one variety at a time for all aggregate orders to enable us to handle the output while dormant, therefore it is impossible to ship full assortments early in the digging season. When Pacific Coast orders are filed all the unsold stock we have is shipped to St. Louis, Illinois. Order now while list is complete.

Orders from unknown correspondents must be accompanied by cash or satisfactory reference. All bills due June 1.

Sales made subject to stock being unsold when order is received, or loss by any and all unavoidable causes.

Boxes charged at minimum rates. All shipments carefully packed in moss.

We exercise the greatest care to keep our varieties true to name and hold ourselves in readiness at all times to replace, on proper proof, all stock that may prove otherwise, but it is mutually agreed between the purchaser and ourselves that we shall not, at any time be liable for any amount greater than the original price of the stock.

Our trade being wholesale only, we beg our friends not to hand our prices to parties not entitled to them.

" A D O B E "

Adobe brick are generally made from material at hand, clay and sand, and dried by an arid sun. They are probably one of the oldest forms of construction material used. From the days of Ninevah their use has been constant but we presume they have never before been employed in the construction of a nurseryman's packing house. The buildings are not practical where rainfall is large, but being cool they are desirable in dry climate, and with the aid of this one we wish to demonstrate to you that Arid-Climate Rose Bushes have come to stay, "allee samee adobes."
